

To Whom It May Concern,

I have had the pleasure over the last several years of having Timothy Gothra on my team as a leader and as well as being a customer of his. During my experience with Timothy I can say I have never met a more kinder, hardworking, and passionate individual about his work. No matter if it was during his tenure as a manager for one of my retail locations or a customer of his purchasing a marketing design for my employers corporate events. At all times Timothy displayed a largely above standard experience. His work was pristine and done in a timely manner. I asked him to make multiple last minute adjustments to the project and Timothy was able to accomplish and deliver them all without hesitation. I would recommend Timothy Gothra in any capacity as a leader, graphical design work, and even more so as a person. Individuals such as Timothy are hard to come by in the business world today and when finding someone of his talent it would be intelligent for any person or business to seize that opportunity.

Sincerely,

A handwritten signature in black ink that reads "Derek Elsrod".
